SUMMARY

Motivated Computer Science and Engineering student with strong foundations in Python and C programming. Skilled in problem solving, web application development, and collaborative learning. Passionate about software development and continuously improving technical skills through workshops and hands-on projects.

EDUCATION

Shri Vishnu Engineering College for Women

Bachelor of Technology in Computer Science and Engineering

Bhimavaram, AP

Sep. 2025 – May 2029

- Current Academic Standing: **9.62 / 10.0 CGPA**
- Relevant Coursework: Computer Programming in C, Calculus, Physics

Narayana Junior College

Intermediate (Class XII), BIEAP

Gudivada, AP

2023 – 2025

- Specialization: Mathematics, Physics, Chemistry (MPC)
- Final Score: **97.1%**

DR. K K R Gowtham School

Secondary School Certificate (Class X)

Gudivada, AP

2022 – 2023

- Final Score: **88.3%**

PROJECTS

Portfolio Website | *HTML, CSS, JavaScript*

- Designed and developed a personal portfolio website featuring a responsive layout, animated starfield background, and smooth-scroll navigation
- Built using pure HTML, CSS, and JavaScript; deployed live using GitHub Pages
- palankidhanyasri.github.io/Portfolio1

CERTIFICATIONS

Team Instructor – Lovable AI Workshop

Certificate of Appreciation for guiding participants in Website and Web Application Development

SVECW

2025

- Recognized for leadership, mentoring, and technical guidance during the workshop
- Assisted participants in building websites and web applications using modern development tools

Participant – IDEATHON 2026

Certificate of Appreciation for participation in IDEATHON-2026

SVECW

Aug. 2026

- Participated in an ideation event focused on developing innovative solutions for real-world challenges
- Contributed to the project **Aquwise AI – To Reduce Water Consumption in Data Centers**, exploring AI-driven approaches for sustainable water management

SKILLS

Languages : Python, C

Tools : VS code
