PROFESSIONAL SUMMARY

Computer Science and Engineering student with a **9.44/10.0 CGPA** and strong foundations in **C, Python, and Data Structures**. Interested in software development, problem solving, and building practical technology solutions. Experienced in developing a personal web project and supporting participants through technical workshops.

EDUCATION

Shri Vishnu Engineering College for Women

Bachelor of Technology in Computer Science and Engineering

Bhimavaram, AP

Sep. 2025 – May 2029

- **CGPA: 9.44/10.0**
- **Coursework:** C , Data Structures and Algorithms, Python

Narayana Junior College

Intermediate (Class XII), MPC

Gudivada, AP

2023 – 2025

- **Score: 97.1%**

Dr. K K R Gowtham School

Secondary School Certificate (Class X)

Gudivada, AP

2022 – 2023

- **Score: 88.3%**

PROFESSIONAL EXPERIENCE

Team Instructor – Lovable AI Workshop | Website and Web Application Development SVECW | 2025

- **Guided participants** in building websites and web applications by providing technical support and mentoring during the workshop.
- **Assisted participants** with development tasks and helped them implement their ideas through practical activities.
- **Supported collaborative learning** by addressing technical questions and assisting participants throughout the development process.

PROJECTS

Portfolio Website | HTML, CSS, JavaScript

- **Designed and developed** a responsive personal portfolio website to present academic information, projects, skills, and achievements.
- **Implemented** an animated starfield background and smooth-scroll navigation to create an interactive user experience.
- **Built and deployed** the project independently using GitHub Pages and maintained the website through GitHub.

TECHNICAL ACTIVITIES

Participant – IDEATHON 2026

SVECW | Aug. 2026

Aquawise AI – To Reduce Water Consumption in Data Centers

- **Explored AI-driven approaches** for reducing water consumption and improving sustainability in data-center operations.
- **Worked collaboratively** on developing and presenting an idea focused on sustainable technology solutions.

Participant – Adobe University Hackathon

Adobe | 2026

Technical Problem Solving and Collaborative Development

- **Participated** in the Adobe University Hackathon and gained exposure to technical problem solving in a collaborative environment.
- **Engaged in collaborative development** by contributing to discussions and working with peers on technical challenges.

TECHNICAL SKILLS

Programming: C, Python

Core Systems: Data Structures

Tools: Git, Excel, VS Code
